5+

YEARS IN MOTION

30

PERSON TEAM LED

40K+

CREATIVES / MONTH

AI Motion Designer with 5+ years in performance video production. Grew from video editor to head of a 30-person motion department producing 40,000+ ad creatives per month. Built an end-to-end AI video production tool from scratch. I combine hands-on motion design craft with AI generation pipelines and team leadership, and I ship at performance-marketing pace.

01 EXPERIENCE

AI Motion Designer

2025 – PRESENT

Performance marketing company

- Independently built an end-to-end AI video production tool (generation, editing, assembly) using AI-assisted development, with no formal engineering background. Subscription-based stack cut generation costs several times over vs pay-per-use APIs.
- Produce AI-driven ad creatives: 3D model videos, AI UGC avatars, product and app reviews, App Store page videos, UI animation.
- Work with Veo, Higgsfield, Krea, Midjourney, ElevenLabs: per-shot prompting, multi-pass refinement, consistency control across variations.

Motion Designer

2024 – 2025

Drawer AI (US startup)

- Turned a real-time power grid architecture platform into clear animated explainers, translating complex engineering logic into motion graphics for non-technical audiences.

Head of Motion Department

2023 – 2024

Traffic arbitrage company

- Led a 30-person department (4 team leads × 5 designers) producing 40,000+ performance creatives per month for TikTok, Facebook, Instagram, and YouTube Shorts.
- Introduced skill-based task distribution and a structured production workflow: fewer bottlenecks, faster onboarding of new designers.
- Built reusable templates, trained the team, ran weekly reviews and monthly performance reporting.

Motion 2D Designer

2022 – 2023

Traffic arbitrage company · Freelance

- Short-form ad creatives for Facebook, Instagram, TikTok, YouTube Shorts; worked with UGC actors.
- Freelance: logo animation, presentation design, UI animation, Lottie animations.

Video Editor

2020 – 2021

- Started in event and wedding editing, then moved into advertising video production.

02 SKILLS

Motion & Editing

After Effects · Premiere Pro · CapCut · Cinema 4D · Photoshop · Illustrator · Figma

AI Production

Veo · Higgsfield · Krea · Midjourney · HeyGen · Synthesia · ElevenLabs · Claude Code

Leadership

Team of 30 · Workflow design · Pipeline automation · Creative testing & iteration
